

Field Excursion in Geography Department

Message from the Head of the Geography Department

Geography is a multi-faceted discipline that bridges the gap between human life and the natural environment. Field excursions are important for development of students as they assist them in learning about different landscapes, socializing with people and their cultures, at the same time enjoying the beauty of nature beyond the classroom. Our Department arranges field excursion every year to various parts of the Country from the ***northern stretch of the Himalayan Mountains to the Indian oceans in the south, the western deserts of Rajasthan to the monsoon-covered rainfall areas of Meghalaya in east.*** These trips do not only add to the academic learning but also give a lifelong experience of adventure, friendship and exploration.

These moments captured over the years and sceneries are a testimony to the dedication of the Department to the ***experiential learning and the strong bond between the teachers and students.*** They motivate the future generations to learn, investigate and grow beyond the classroom.

I, on behalf of the Geography Department, would like to thank our former faculty ***Dr. Mrinal Kanti Roy***, and ***Mr. Biswajit Debnath*** as well as ***Dr. Md. Selim Reja*** and ***Mrs. Banya Karmakar*** for their dedicated service, constant guidance, and the immense care with which they have nurtured this Department.

This ***memory pages (2007-2026)*** are dedicated to my beloved ***pass-out students*** and also warmly welcoming the ***shining new rays of future students***, who will carry this journey with pride and purpose.

Dr. Benojir Yasmin

HoD & Assistant Professor

Department of Geography

University B.T. & Evening College

The University of North Bengal

Field Excursion in Geography Department

Shimla Excursion 2009

The Geography Department's first-ever BA Honours field Excursion to Shimla marked a memorable academic journey, blending the beauty of the Himalayas with valuable field-based learning experiences.

Dehradun–Mussoorie Excursion 2011

BA Honours field Excursion to Dehradun and Mussoorie marked a memorable beginning of academic exploration beyond the classroom.

B.A. Local Survey 2011

The Geography Department's B.A. General local survey provided students with valuable field-based experience, fostering practical understanding through community-level study and observation.

Field Excursion in Geography Department

Delhi Excursion 2012

BA Honours field Excursion to Delhi offered students a rich academic experience, exploring urban landscapes alongside valuable field-based learning.

Jaldhaka Barrage Survey 2012

The Geography Department's BA General field survey at Jaldhaka Barrage provided students with valuable hands-on experience in understanding river systems and local environmental conditions.

Himachal Pradesh–Shimla Excursion 2013

BA Honours field Excursion to Himachal Pradesh and Shimla offered students an enriching academic journey, combining Himalayan exploration with valuable field-based learning experiences.

Field Excursion in Geography Department

Darjeeling–Mirik Excursion 2013
BA General field Excursion to Darjeeling and Mirik offered students an enriching experience, blending hill landscape exploration.

Green Valley Excursion 2014
The Geography Department's field visit to Green Valley provided students with an enriching experience of Himalayan landscapes and valuable field-based learning.

Gangtok–Nathula Pass Excursion 2014
BA General field Excursion to Gangtok and Nathula Pass offered students a unique high-altitude experience, blending Himalayan exploration.

Field Excursion in Geography Department

Rajasthan Excursion 2015

The Geography Department's BA Honours field Excursion to Rajasthan offered students a rich academic experience, exploring diverse landscapes and gaining direct interaction.

Lachung-Lachen-Zero Point Excursion 2016

BA General field Excursion to Lachung, Lachen, and Zero Point offered students a remarkable high-altitude experience, blending Himalayan exploration.

Shimla-Manali Excursion 2017

BA Honours field Excursion to Shimla and Manali offered students an enriching Himalayan experience, combining scenic exploration with valuable field-based learning.

Field Excursion in Geography Department

Rajasthan Excursion 2019

The Geography Department's field Excursion to Jodhpur, Jaisalmer, and Jaipur offered students an enriching experience of desert landscapes and culture of local people.

Shimla–Manali Excursion 2020

BA Honours field Excursion to Shimla and Manali offered students an enriching Himalayan experience, combining scenic exploration with valuable field-based learning.

South Sikkim Excursion 2021

The Geography Department's field Excursion to South Sikkim offered students an enriching experience of Himalayan landscapes and beauty of hilly livelihoods.

Field Excursion in Geography Department

Uttarakhand Excursion 2023

The Geography Department's field Excursion to Uttarakhand offered students an enriching academic experience, exploring diverse Himalayan landscapes.

North Sikkim–Kalimpong Excursion 2023

Field Excursion to North Sikkim and Kalimpong offered students an enriching experience of Himalayan landscapes along with valuable field-based learning.

Visakhapatnam Excursion 2024

The Geography Department's field Excursion to Visakhapatnam offered students an enriching experience of coastal landscapes, combined with valuable field-based learning about the lifestyle of fisherman.

Field Excursion in Geography Department

West Sikkim Excursion 2025

The Geography Department's BA/BSc Major field Excursion to West Sikkim offered students an enriching experience of Himalayan landscapes, combined with valuable interaction with hilly people and their livelihoods.
